

REGARDING DISCONTINUATION OF ENTERTAINING OF MAILS RECEIVED FROM MAILS IDS OTHER GOVERNMENT MAIL ID

***** Very Important *****

This is to inform you all that mails are sent at support.hrmspb@nic.in using Gmail, Yahoo mails or similar types of private vendor provided email ID through which various change requests / modifications are requested which makes it difficult for us to ascertain the sender and its genuineness. We have even noticed that many internet cafés owners have started acting as tout and visit to us in the guise of employee and request us to make the changes on behalf of employees and claim themselves as employee.

As you all appreciate that not only iHRMS has become de-facto application for HR Management in Punjab under the close supervision and guidance of Government of Punjab but many other software's/projects are now using important employee data from iHRMS Database related to employee details / posting / transfer / promotion etc. and seriously rely & make decisions based upon the real time updated data in iHRMS. Hence any change in the data of any type in iHRMS has direct bearing in other applications.

It is therefore decided that from now onward no email coming to us from any private vendor provided email id will be entertained howsoever important it would be. It is therefore requested humbly to use emails Ids obtained from official email provider while corresponding with us. In case you don't have the same then please obtain it from Governance Reforms, Punjab by routing the request through <https://eforms.nic.in> portal.

Though we are constantly showing the message immediately after login for creation and entry of official email ID but unfortunately not much attention is given to this. We therefore request you all now to obtain the official email id and correspond with us using that mail only. In no case we will entertain the request received on non-government provided email IDs.
